**CARE FOR YOUR PRODUCTS**

Beeswax or Howard Orange Oil can be used for cleaning, and will keep the product looking like new. Touch up pens can be purchased at your local Mohawk or Paint store and can be used for maintenance and care.

Original Bee's Wax is a safe, reliable polish that works great on many of our products. It is the one furniture polish that won't leave behind finger prints and does not cause wax build up. Not only is it great for LH products, but it can also be used on marble, mirrors, leather, and painted surfaces.

D-Bodhi is a collection like no other. It features recycled teak wood, which provides durability and sturdiness to all items. The wood is sourced from support beams and outer panels of old houses which gives each piece a unique character.

D-Bodhi's reclaimed wood comes from old houses in remote villages. Extended families in rural settlements tucked into the hills of East Java still build beautiful simple knock-down wooden homes made of abundantly grown teak from that area. It has been an ongoing tradition for Javanese families to keep their homes for three generations of the family, before tearing it down and building new, for the next three generations. It is from these torn down houses that majority of the wood comes from.

## Green Rugs

All rugs are hand knotted and over dyed. Although we have categorized our rugs into various colour groups, there is still a large variation in colour. All rugs are made with natural dyed hand spun sheep wool in tribal areas of Pakistan. No two rugs will look the exact same and the end product will most likely sit somewhere in the given colour spectrum shown.
