## QUALITY . DESIGN . CRAFTSMANSHIP

We are a technical design company at the forefront of construction and development. Our team of designers, engineers and innovators are passionate about creating functional, precision furniture for outdoor living. Traveling the world, we collaborate with leading designers and discover the latest materials and technology. Our success is a testament of our unique culture, dedication, strong innovation pipeline and our passion for design and construction.

## Our Company

At the heart of Ratana is the idea that a life well lived is spent in nature. We have carried this idea with us since 1980 when we first began crafting woven products. Production once focused purely on expert wickerwork, but as time moved on, so did we, evolving with the demands of form and function. Our thoughtful and comprehensive outdoor furniture collection is designed to cater to a lavish life lived outdoors—simultaneously providing an effortless style, detailed craftsmanship and an enduring quality that will serve for years to come.

While we place emphasis on embracing innovation, some things remain steadfast. As a family-run business from the very beginning, legacy is not lost on us. This not only exists in the generations within our ranks but with those we work with every day, including our staff, partners, and clients. Many of whom, we are proud to say, have stayed with us for over 40 years. Having family as a foundation and continuing to honour the bonds we've built over decades; tradition will always have a place here.

## Durastrap™

Durastrap™ offer style and softness while also being lightweight, durable and strong. Extra comfort is provided by the synthetic EVA (Ethylene Vinyl Acetate) rubber foam within which is moisture and mildew resistance.

## Durarope™

Durarope™ and Durastrap™ are made of Polypropylene (PP) and Polyolefin (PO) which are light weight and strong. To slow degradation, antioxidants and ultraviolet inhibitors are added to increase the lifespan of the material. Both also have excellent insulation properties and highly resistance to mildew.
