

WEIGHS LESS HOLDS MORE

OUTBOUND
DISTRIBUTION

Over the course of 8 years Atoll Board Co has refined the best inflatable SUP board on the market. They've bridged the performance gap between hardboards so that customers can now enjoy ease of use, durability, performance and great design in their iconic and multi-purpose 11ft inflatable SUP.

FULLY FEATURED

The Atoll comes with a total of 15 low profile stainless steel D-rings for tying down all your gear and accessories. The front bungee cords are versatile and can secure a multitude of items — including coolers, camping gear, packs, or other outdoor equipment. With Atolls impressive weight carrying capability, you can take exactly what you need on your water adventures.

CAPABLE PORTABLE DURABLE

At just 19 pounds the Atoll iSUP is extremely portable. Packed in its included backpack is everything else you need for getting onto the water; the sturdy hand pump with pressure indicator, paddle and removable fin. Once inflated the Atoll iSUP is rated to carry 700 pounds.

CUSTOMIZABLE

The universal iSUP fin box allows for the use of most aftermarket fins. Specific fins can be utilized for SUP racing, touring or SUP river paddling. A broken fin can be easily replaced, greatly extending the life of the board.

The portability and versatility of the Atoll iSUP board is ready for lakes, rivers, oceans, fishing, relaxing or even SUP yoga. Atoll has brought one sized SUP to the market, a size that is right for everyone.
